

ALUMINUM MOTORBOATS **VIZION**

WHY EXACTLY VIZION

ALUMINUM MOTORBOATS

Speed and reliability

A UNIQUE COMBINATION OF NAVIGABILITY AND ENORMOUS MARGIN OF SAFETY

Our engineers and constructors have been developing the hull shape and the basic structures for three years. The result of their work is a boat that combines navigability, weight and enormous margin of safety.

Efficiency

LOW MAINTENANCE COSTS

Our clients can save on the price of the motor, as well as on its attendance and fuel burn rate. For instance, the Model 440 has got the power motor allowance of 50 HP. This engine allows you to reach speed of up to 60 km/h.

Equipment & style

THE FULLEST COMPLETE PACKAGE ONLY

VIZION boats are available in one set of components and it is the fullest. There are five colors and two variants of board style for our clients to choose. We will make sure that you are always proud of your purchase.

10 year warranty!

FOR THE HULL AND WELDED JOINTS

Owing to the high skills of our employees we can assure clients of the quality of our products. Therefore the warranty for the hull and welded joints is 10 years. At our production plant we always help clients with finding resolution for any problems.

Safety

WE PAY SPECIAL ATTENTION TO THE SAFETY OF OUR BOATS

We entrusted the safety check to the top experts of the field – International Marine Certification Institute. They carried out all the tests that were necessary to confirm the absolute safety of our boats.

Transportation

CONVENIENT FOR TRANSPORTATION AND STORAGE

As the weight of equipped boat (Model 440) does not exceed 500 kg, its transportation does not demand a trailer with carrying capacity more than 550 kg. Usually such trailers do not exceed 6 m in length.

COMPONENTS FROM THE BEST MANUFACTURERS ONLY:

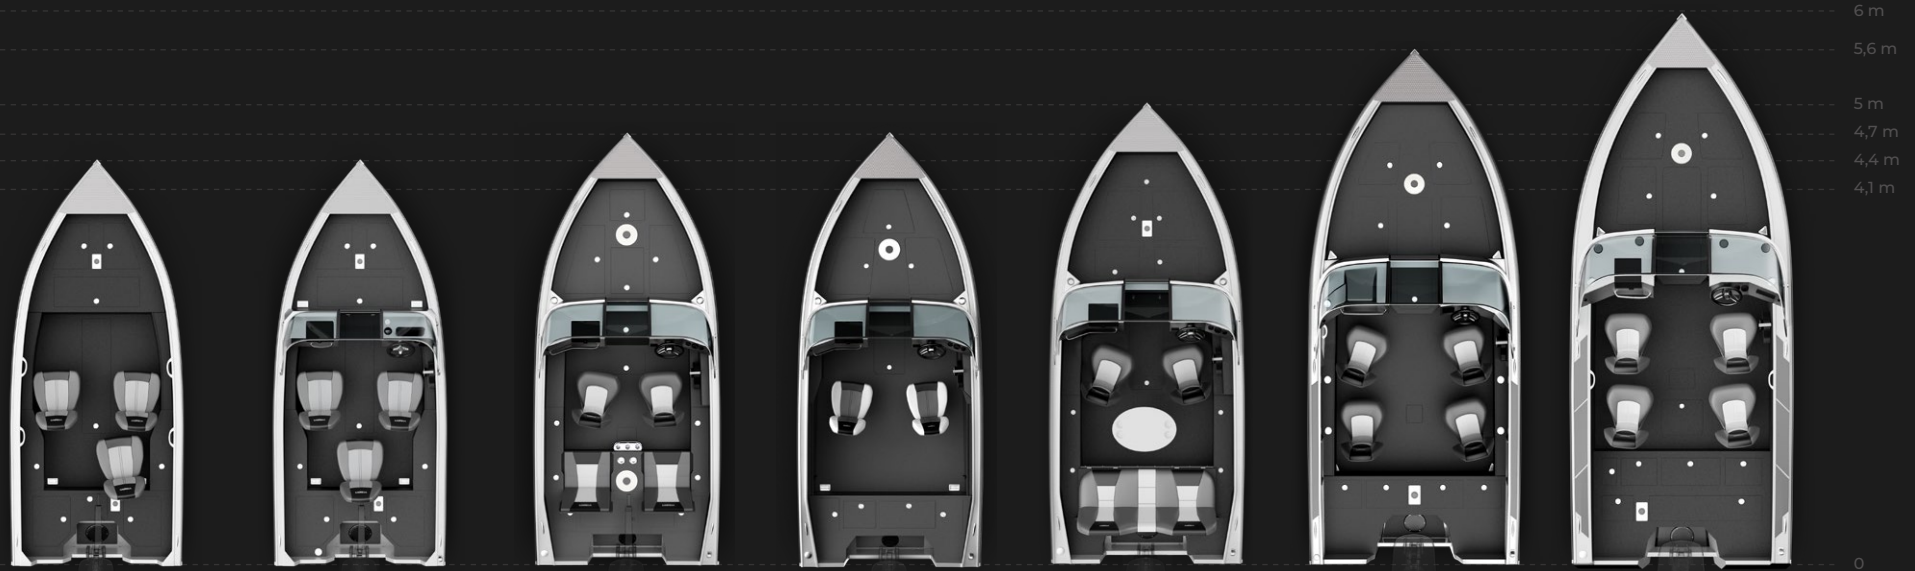

VIZION is an official dealer of the best manufacturers for aluminum motorboat accessories and equipment. We are ready to install any equipment and accessories on your motorboat.

VIZION 440RS

VIZION 440RS is a light version of VIZION 440CS. The absence of the console allowed to decrease the weight significantly and expand the deck space. For this particular model we recommend installing motors with a capacity of 30-40 HP. Moreover, this model is not inferior to its fellow boats in terms of the quantity of compartments, quality of accessories and installation.

Technical data

CHARACTERISTIC	VALUE
Total length	4430 mm
Total width	1900 mm
Hull height in midsection	800 mm
Transom height	380/510 mm
Thickness – bilge/board	3 / 2 mm
Hull composite material	AL 5083 H111
Transom deadrise	10°
Load limit (weight of passengers and luggage)	450 kg
Max people capacity	4
Max engine power	50 HP
Weight of rigged hull (excluding outboard motor)	290 kg
Category	C

Basic equipment

- ✓ Electric wiring
- ✓ Wiring duct for additional equipment (cable hoist, electric motor)
- ✓ Socket (12V)
- ✓ 4 retractable cleats, stainless
- ✓ Trunk boxes with drainage system
- ✓ Navigation lights
- ✓ Parking light
- ✓ Water pump
- ✓ 3 bases for seats of the cockpit
- ✓ Base for a seat of the front and back part
- ✓ 2 removable stands for seats
- ✓ 2 seat WISE Blast Off
- ✓ Hull coating
- ✓ Battery switch
- ✓ 4 spinning rod compartments 2,7 m
- ✓ Aerated Livewell 80 l
- ✓ Marine carpeting or vinyl finishing
- ✓ LED lighting on the deck (4 lamps)

Compartments location

- 1 FRONT COMPARTMENT**
For storage of large things, such as: casting seats, rescue equipment, anchor, rope, other equipment. Finishing – carpet.
- 2 AERATOR 80 L**
Capacity with water 80 l, Pump (1), Tap with a filter for withdrawal of water, Spraying cap, Set of hoses and fitting pieces.
- 3 SPINNING ROD COMPARTMENT**
Meant for 4 spinning rods up to 2,7 m in length (unfolded).
- 4 2 SIDE COMPARTMENTS**
This compartment can hold many baits and tackle.
- 5 3 REAR COMPARTMENTS**
Compartment for additional battery, battery charger, fenders, personal belongings etc.
- 6 MANHOLE**
For checking the pumps, cables and any water in the bulge.

VIZION 440CS

The unique hull form durable and thoroughly elaborated interior of the boat make Model VIZION 440CS one of a kind in terms of price-to-quality ratio. This model will please its owner with economic effectiveness and low attendance costs for the light weight of the boat does not require the installation of a big and expensive motor. One more advantage is that one can use a trailer with carrying capacity of up to 750 kg, almost every car can cope with such trailer. Despite its compact size the boat meets the highest standards of the choosy anglers.

Fuel tank 60 l.

VIZION 470S

The aluminium motorboat VIZON 470s is a lightweight version of the VIZON 470 model. It is the weight of the boat that is the determining factor when choosing a motor. To reduce this parameter, we used thinner aluminium, made changes in the design of the hull, minimized the use of such heavy materials as plywood, vinyl and carpet. As a result of these changes new model VIZON 470s was born. The main advantage of this model is the possibility of using it in combination with a 50 hp engine. The VIZON 470s model was no exception and retained all the advantages of the VIZON brand. This is an absolute build quality, the highest quality materials and components, great design, reliability and safety!

VIZION 500

The aluminum motorboat VIZION 500 is created for group fishing and water recreation. If you like the deck to be neatly organized and to have a lot of possibilities to put everything, while fishing or relaxing, then the VIZION 500 model is for you. Fishermen will appreciate the VIZION 500 model with compartments for 9 spinnings up to 2.7 meters long, an aerator for 110 liters of fish, many compartments for storing your gear and lures, spacious fish platforms at the bow and stern of the boat, T-groove for fastening various devices and spacious console for installation of echo sounders and chart plotters. If you like to relax on the water with family and friends, then a comfortable sofa, a quick-detachable table in the center of the cockpit, an awning for sun protection and even a barbecue are at your service! The aluminum motorboat VIZION 500 has excellent design, dynamics, and controllability. In the production of the VIZION 500 model, we only used high-quality materials and accessories. The VIZION 500 model embodies style, speed, reliability, and safety.
